## INTRODUCTION

The things you love are made with code. From helping change lives to creating the next big thing, code makes it happen. Learn how, and *you* can make things happen too.

So grab your girls, a computer, and probably some pizza (*since coding on an empty stomach is not recommended*) and let's get this party started.

# FUN FACTS & CODE-SPIRATION

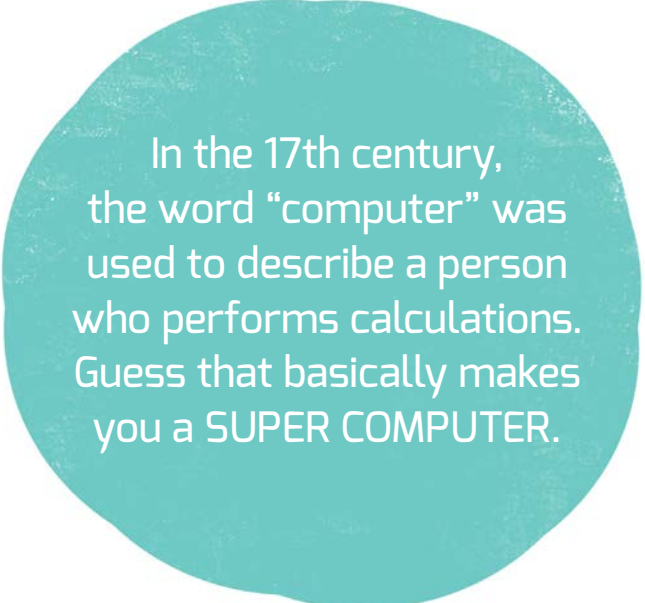

The first computer programmer was a woman named Ada Lovelace. NBD, she's just a total HERO!

Your cell phone is more powerful than the rocketship which took Buzz\* to the moon!

Imogen Heap made gloves that let her play music in the air.  
[Check them out!](#)

In the 17th century, the word “computer” was used to describe a person who performs calculations. Guess that basically makes you a SUPER COMPUTER.

\*Buzz Aldrin founded [ShareSpace Foundation](#) so that children may develop a lifelong, life-changing love for science, technology, engineering, arts and math (STEAM).

# THE AFTER PARTY

**After the party it's the AFTER PARTY!**

We want to see your code in action. Keep the fun going and share your pics with us by tagging [@madewithcode](#) on Instagram, and it could be featured on our social channels.

See how other girls are rocking code using [#MadewithCode](#) (and don't forget to hashtag your pics too!)
